Jared,

I requested an expedited review of the revised QAPP. It should be finished by the end of this week. Provided that all signatures are in place and everything is approved you should be able to start sampling and remediating any time next week. Let me know if you have questions.

Thanks,

Jason

Subject: Driveways and Dripzones under the CD

Jason,

Soil and Land Services are looking for approval to be able to start Remediating driveways and dripzones under the CD as soon as possible. Can you give us approval for this with the understanding that we will use all work plans and documentation that we used under the UAO for them until the CD's work plans are approved?

Thank you,

Jared Stubblefield
